

EduManage

Academic Excellence Through Smart Management

Onboarding

Faculty Access

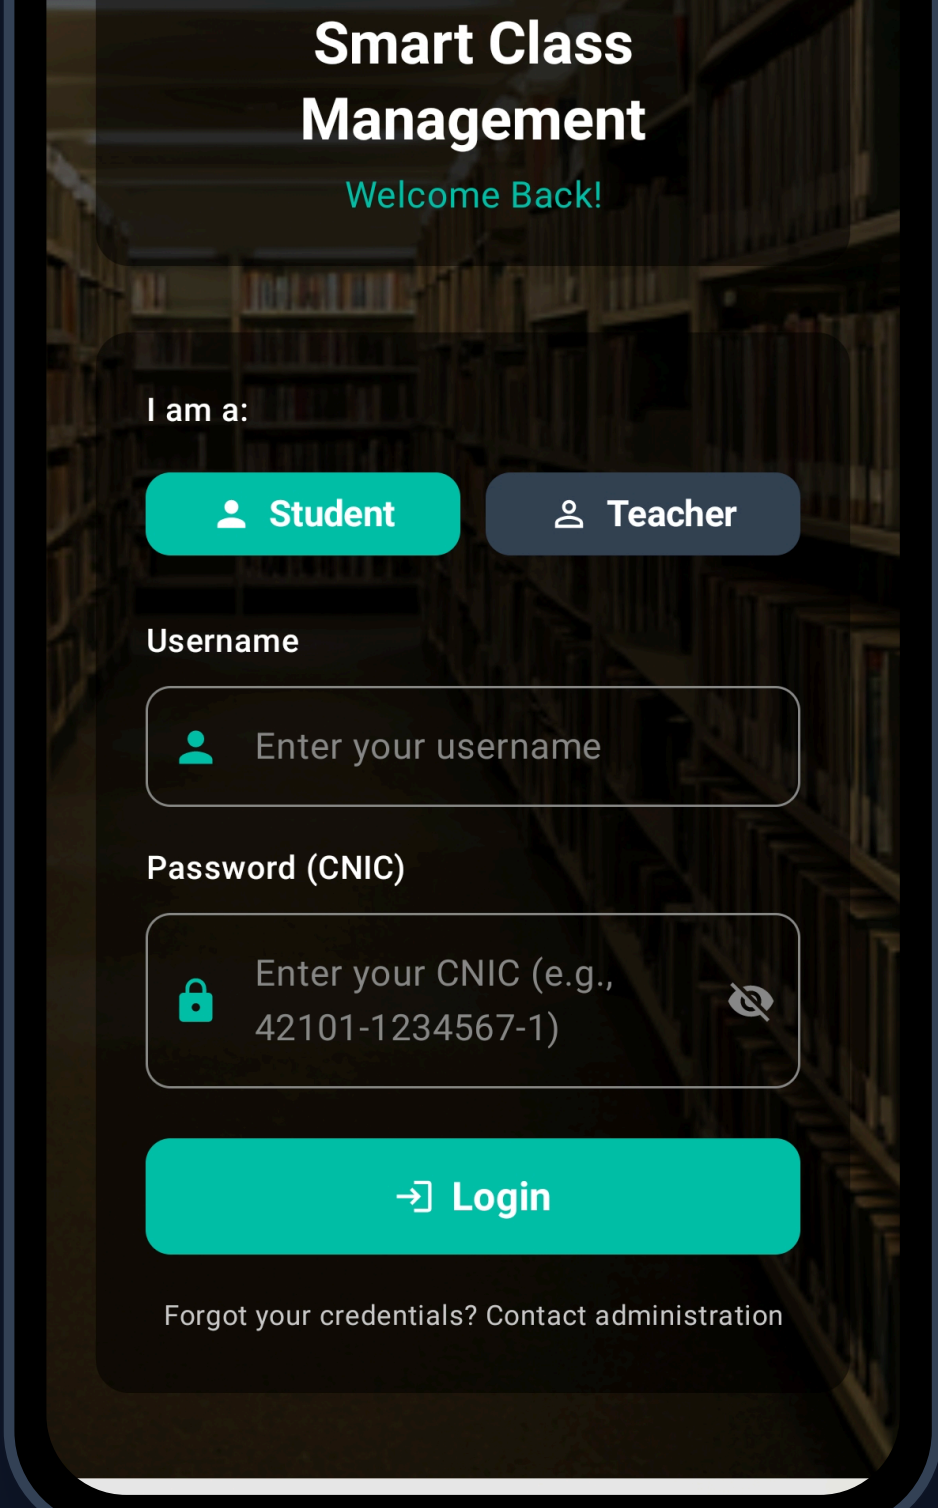

A seamless, professional entry point for institutional members. The Faculty Portal ensures secure access with module initialization for high-performance data handling.

Security

Secure Smart Login

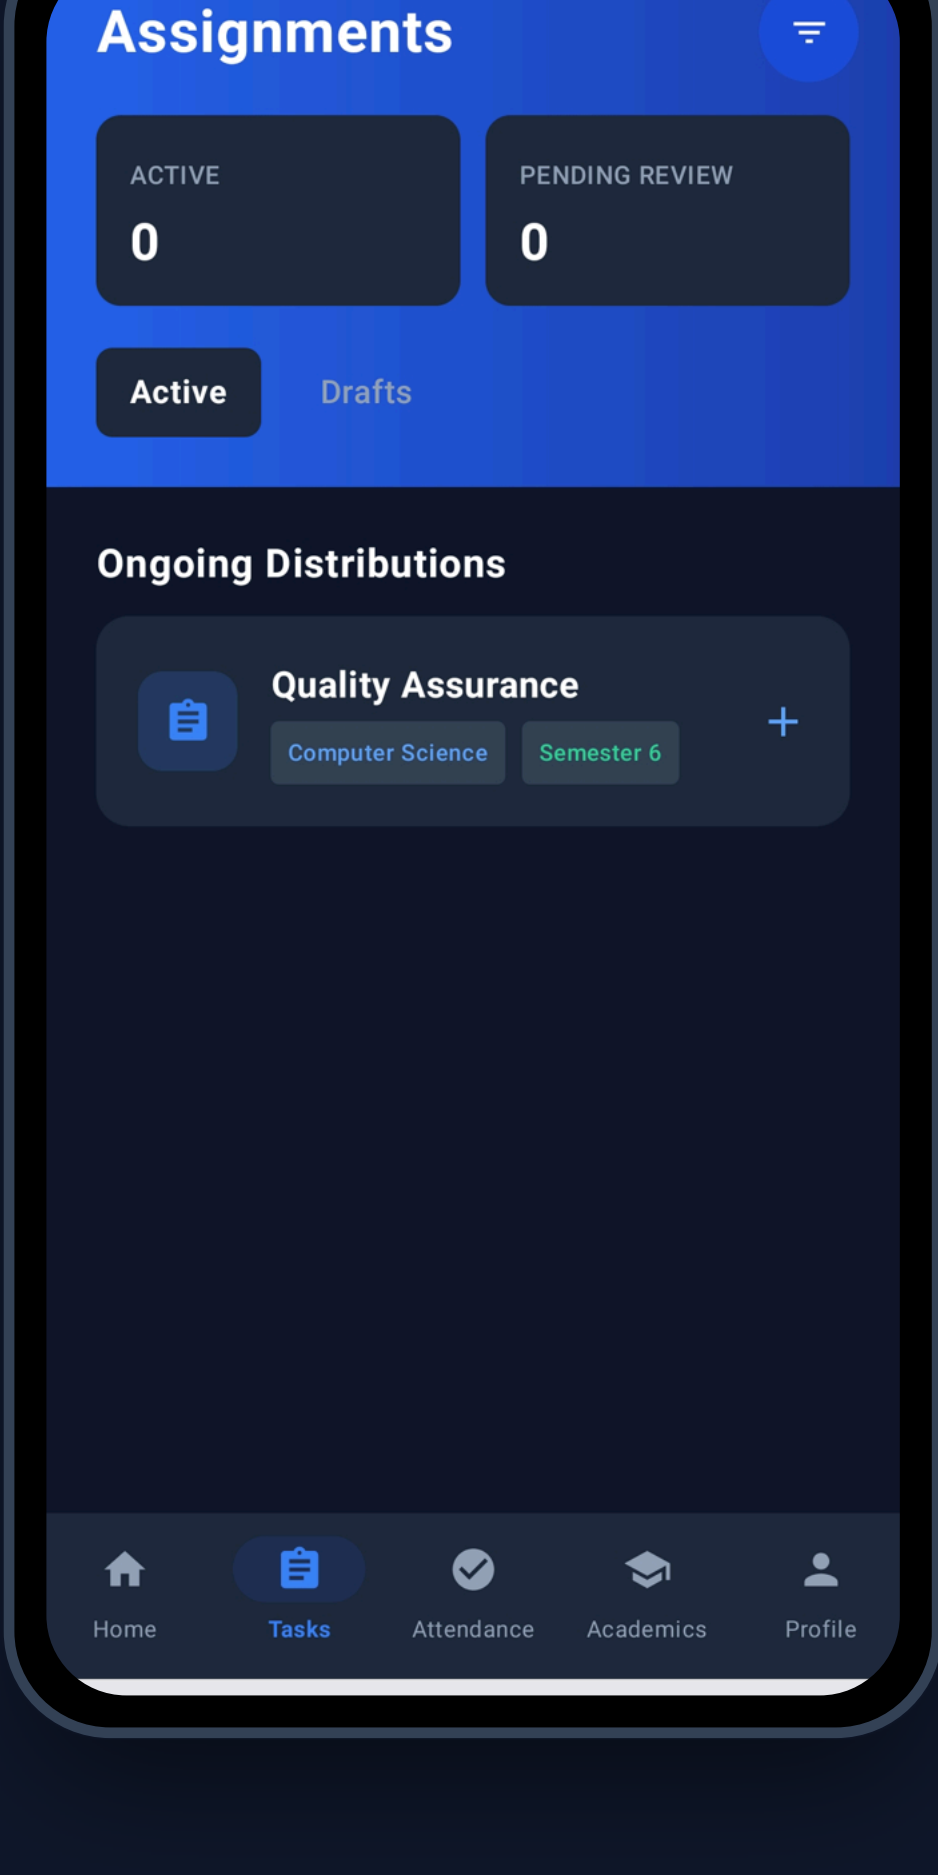

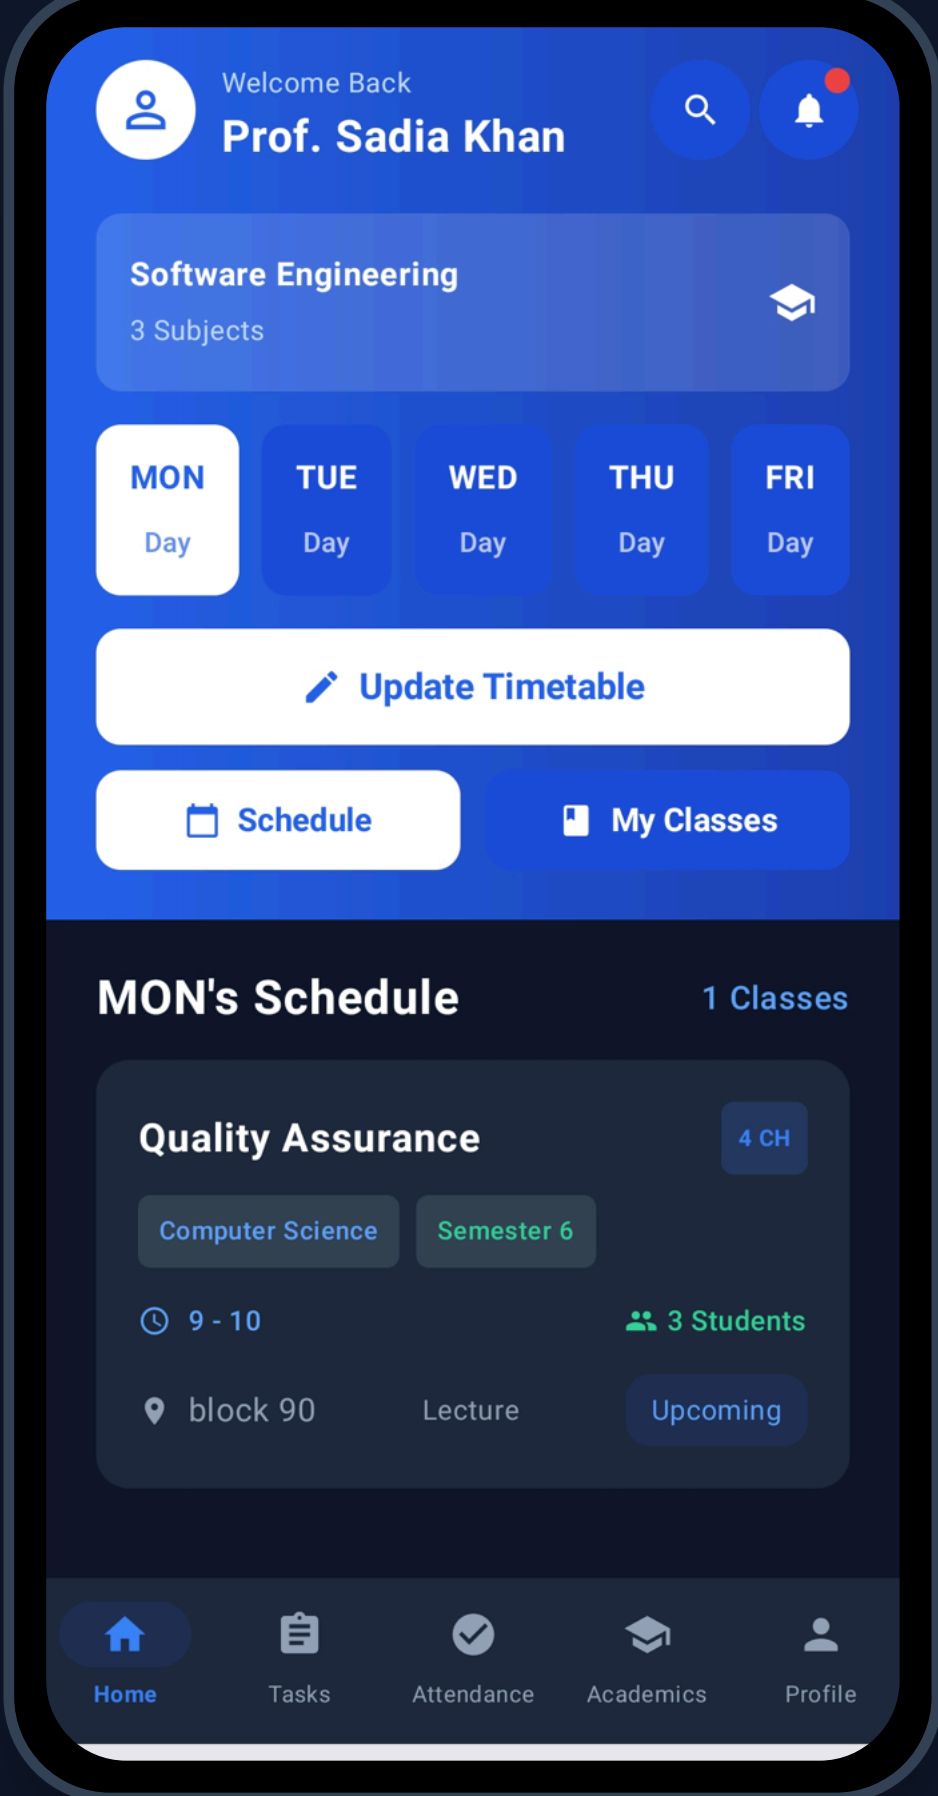

Role-based access control for both Students and Teachers. Authentication is secured via CNIC credentials to ensure data integrity and privacy.

Management

Faculty Dashboard

Professors can manage their entire academic load from one place—from updating timetables to viewing upcoming classes in Block 90.

Workflow

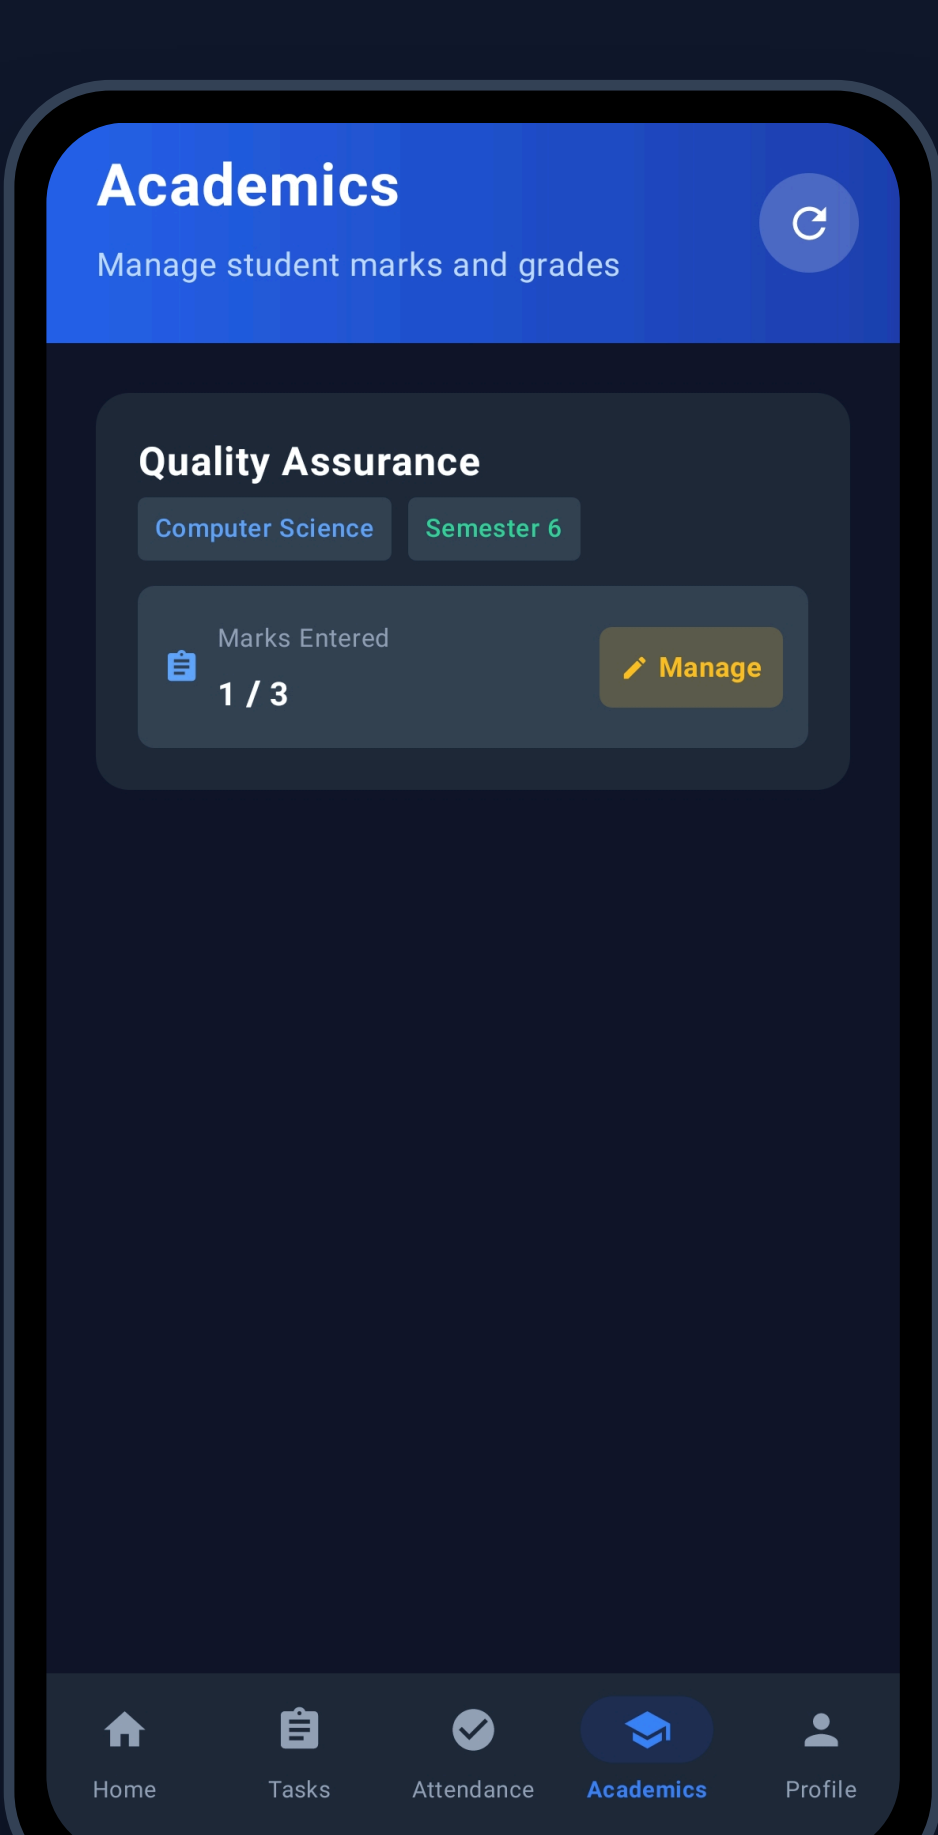

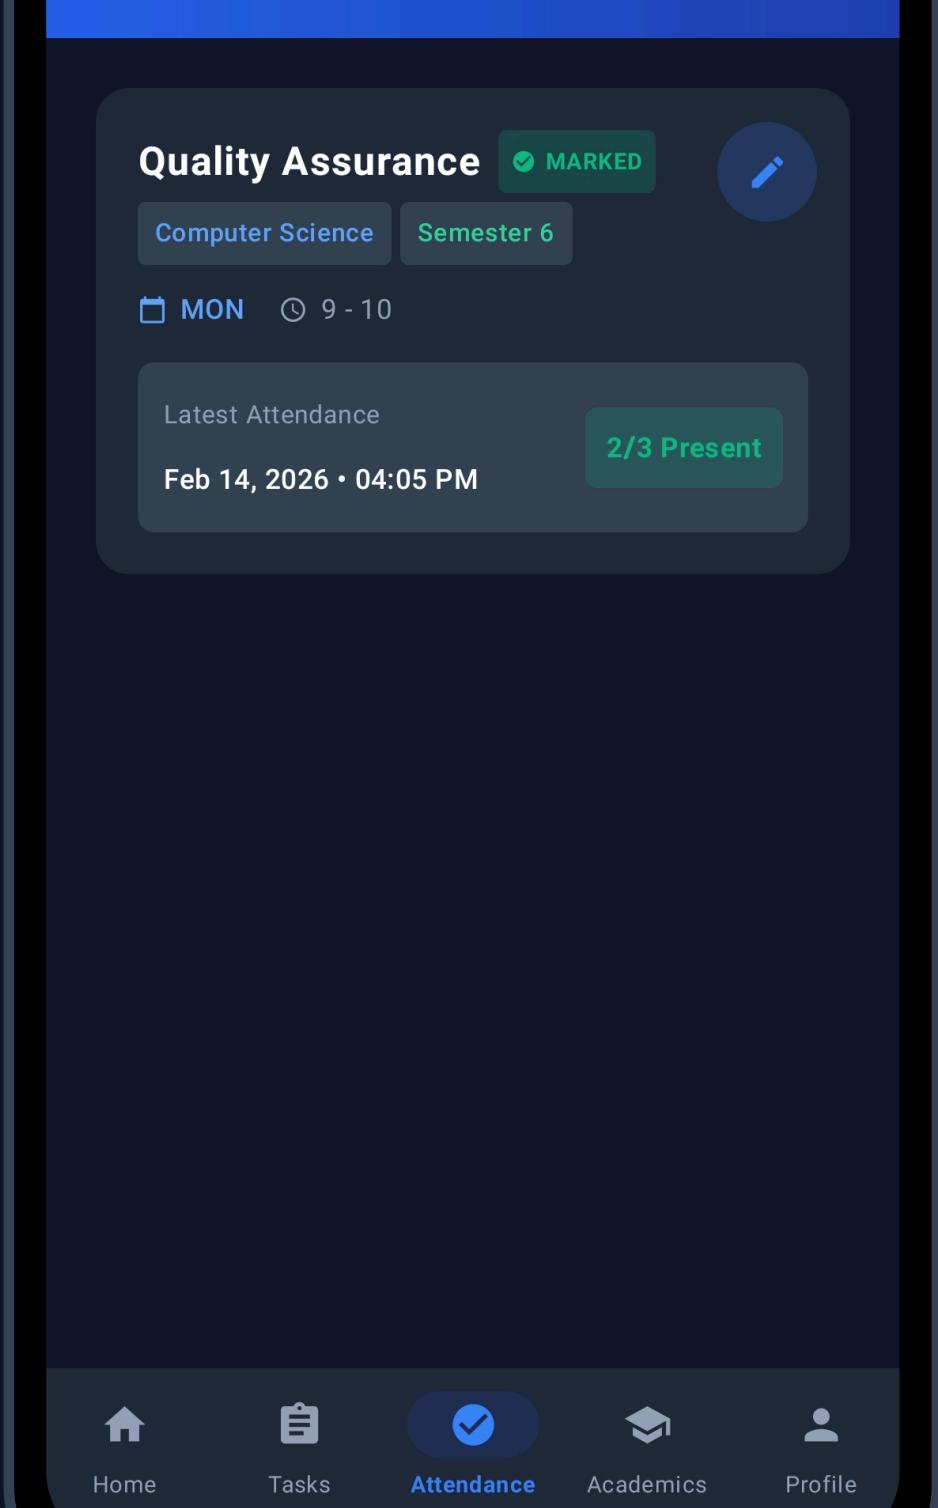

Assignment Tracking

Distribute and review Quality Assurance assignments for Computer Science batches with ease. Real-time tracking of active and pending reviews.

Monitoring

Real-time Attendance

Faculty can mark attendance instantly. The system tracks student presence (e.g., 2/3 Present) with precise timestamps for automated record keeping.

Monitoring

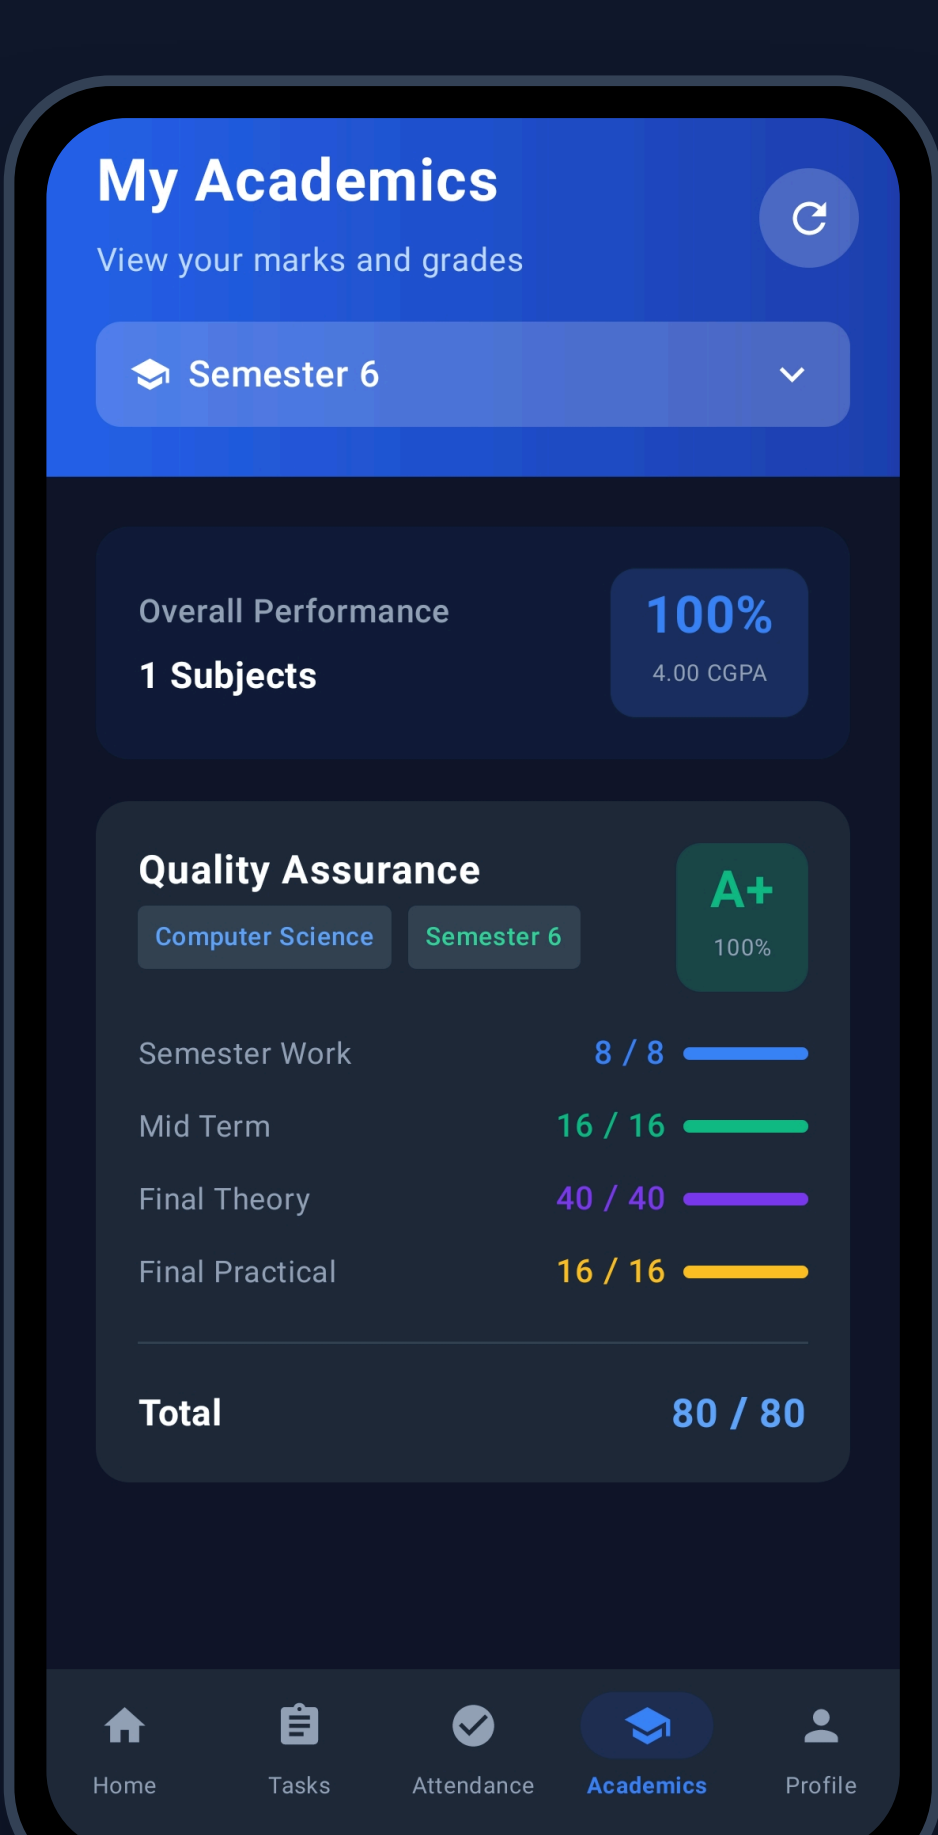

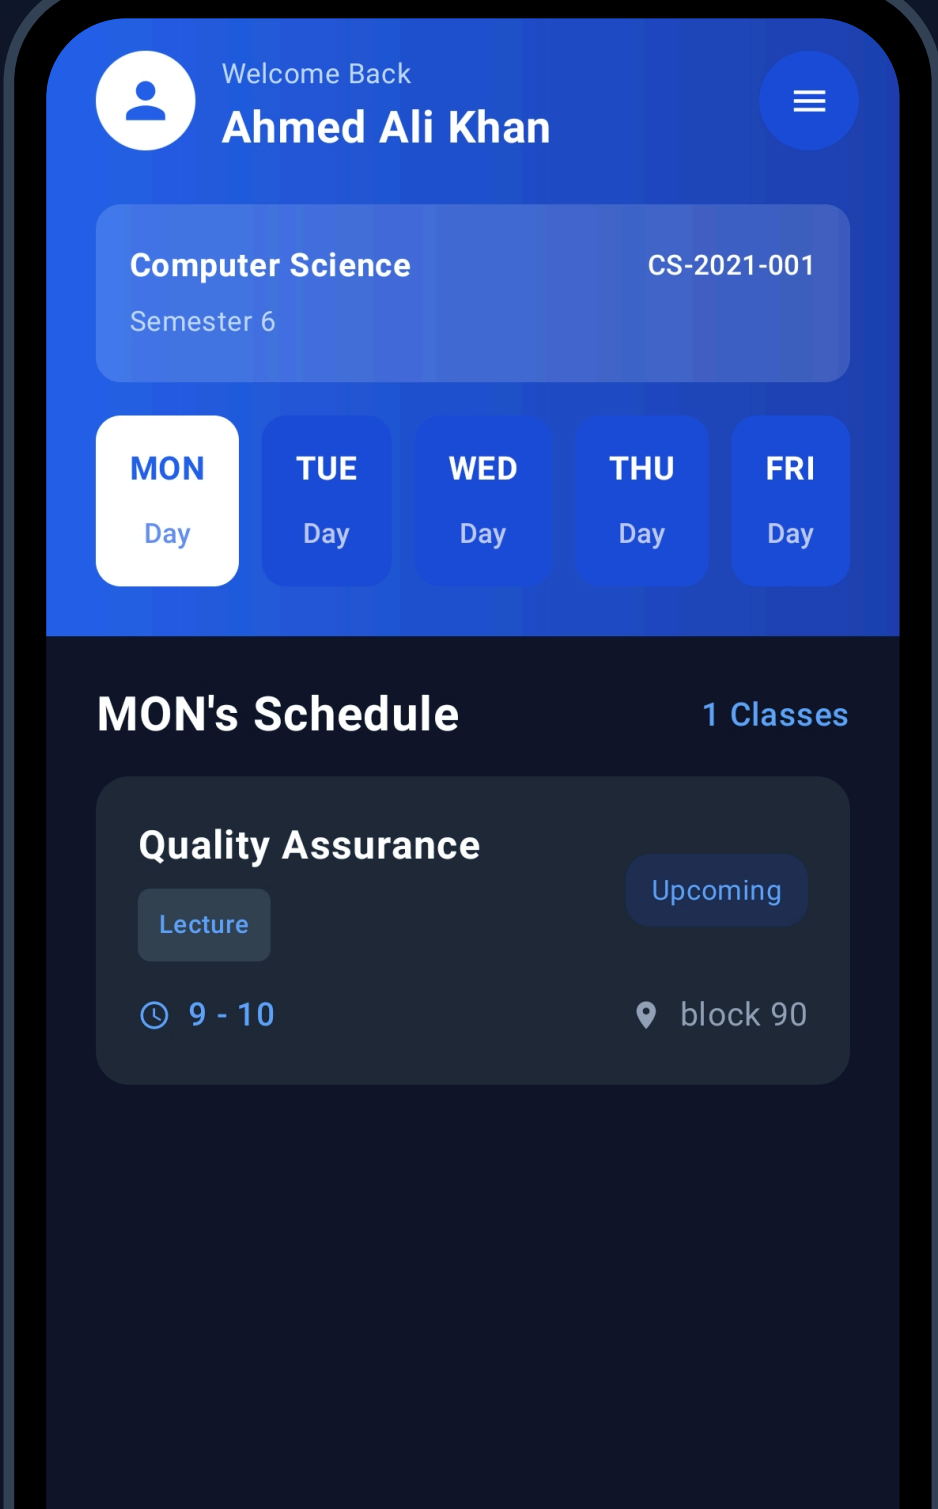

Grade Management

A centralized hub for faculty to manage student marks, allowing for quick entry and updates for specific courses like **Quality Assurance**.

Student View

Student Home

Students like Ahmed Ali Khan receive a personalized schedule, keeping them updated on upcoming lectures and class locations.

Analytics

Performance Metrics

Comprehensive breakdown of grades: Mid-terms, Theory, and Practicals. Visualize academic progress with a 4.00 CGPA tracker and 100% performance indicators.
